

1) A) $p = 0$
 $s.x = 4$
 $s.y = 8$
 $next = 12$

B) 16 bytes

C) $sp \rightarrow s.x = sp \rightarrow s.y$
 $sp \rightarrow p = \&(sp \rightarrow s.x)$
 $sp \rightarrow next = sp$

size: 10 bytes
 unaligned

size: 14 bytes

size: 9 bytes

size: 24

size: 32

3) a) while (tp) \in

tp = tp \rightarrow right;

}

b) traverses the right nodes of the tree until
a leaf is reached
